Plainview, New York 11803

Dear Nick,

I have instructed Ecology & Environment in Chicago to provide your offices with keys to the wells in the Waste treatment plant area of Sauget. It is my understanding throughout our conversation on February 9th, that G & M will be taking groundwater samples in the near future from these wells. I am having the keys sent to you directly for your personal oversight and safekeeping during the sampling program proposed. At the completion of the program we request the keys be returned to me. At the completion of all IEPA investigation activities this agency will provide keys to the landowners.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Larson", with a long horizontal flourish extending to the right.

Jeffrey Larson, Project Manager  
Federal Site Management Unit  
Remedial Project Management Section  
Division of Land Pollution Control
